

Second Class Plan for week of April 27th

The following is a suggestive work plan for the coming week.

Please email me samples work at mpettersen2nd@gmail.com, by taking photos of their work and sending them as attachments. Thank you.

For rainy days and busy parents days....

PE: Try Joe Wicks the body coach. He has kids PE classes on line for free – from ten minutes to half an hour.

ART; For the boys that like to draw, look at Don Conroy. He has some great ideas to help you.

Capacity is the amount that something can hold. In school, when we are talking about capacity, we think of liquids and we measure these in litres and millilitres. Sometime when we buy bags of something, it can be sold by capacity for example when we buy bags of soil, we buy the bag in litres not by weight. The bag is designed to hold 10 litres of soil.

However capacity can be used in filling football stadiums..what that means is the amount of people that can fit into a football stadium. What is the capacity of Croke Park, Pairc Uí Caoimhe and Cork City Football field?

Go to the fridge and look for cartons, see if you can see small cartons which hold 250 mls, 500 mls and large cartons that hold 1 litre of milk or juice, 2 litres or 3 litres....

Additional Maths activities:
